ACADEMY

MASTER TRADER  
**BLUEPRINT**  
COURSE

---

“You must be patient with your trade entries. You must be patient with yourself. If you can bring those two qualities to the table, then the rest will solve itself in time. You will grow your trade size at a pace where your mind will not be alarmed or fearful.”

— Tom Hougaard

WISE STOCK

# THE ONE TRADE SYSTEM

Mr. Mukul Choudhary built One trade system. It was created with day trading risk management in mind.

In the options market, the majority of traders unknowingly overtrade and become caught in a vicious circle of uncertainty.

It is our responsibility to show you how to use our system and trade the markets like an expert.

An old saying goes, "A genius knows when to stop." As a result, our method helps you establish an ironclad mindset and changes your attitude.

# OAP FRAMEWORK

Observe-Adapt-Overcome Framework Built by  
Mr. Mukul Choudhary.

The aim of this framework was to create  
uniformity among traders in their approach to the  
markets.

We view stock market trading as a competitive  
sport where success relies on focus, consistency,  
flexibility in losses, and problem-solving  
capabilities

# COURSE FEE

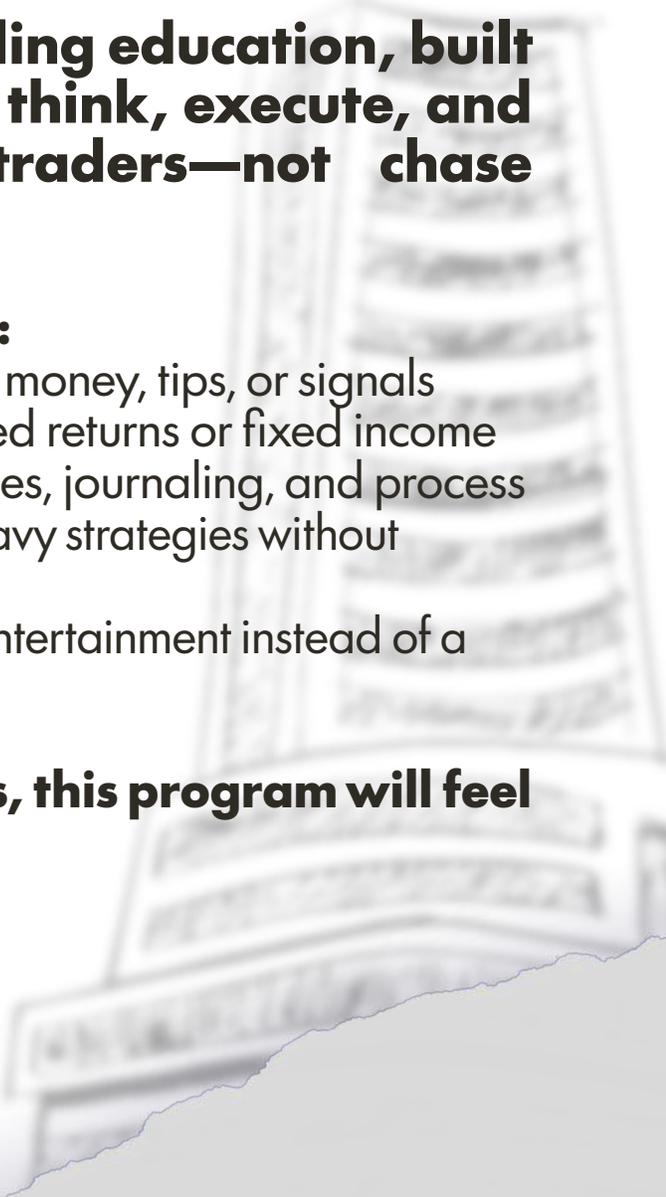

The cost of the course is **Rs 30,000.**

**This is a systems-driven trading education, built for individuals who want to think, execute, and adapt like professional traders—not chase indicators or shortcuts.**

**This program is not designed for:**

- Individuals looking for quick money, tips, or signals
- Traders expecting guaranteed returns or fixed income
- People unwilling to follow rules, journaling, and process
- Those who want indicator-heavy strategies without understanding price
- Anyone treating trading as entertainment instead of a profession

**If you are searching for shortcuts, this program will feel uncomfortable.**
